DUPONT Tyvek
Forward Together™

Tyvek® protective apparel recycling program

DuPont™ Tyvek® is proud to offer a garment recycling program that helps our customers within the continental United States manage used Tyvek® and Tyvek® IsoClean® protective apparel and reduce waste. The program includes setup, collection, transportation, storage and recycling of garments.*

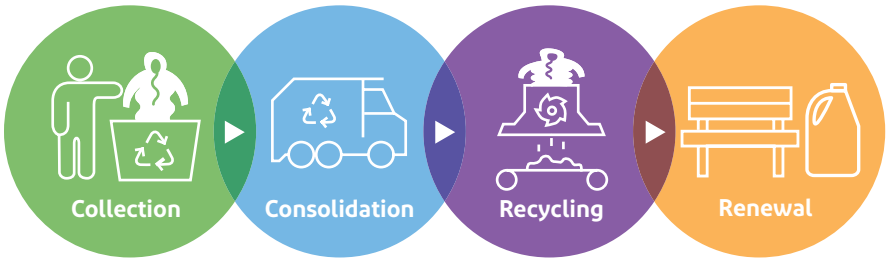
Why recycle?

The Tyvek® protective apparel recycling program offers the chance to divert garments away from landfills and give them a second life in products like containers, lumber pallets and park benches.

Predicted savings

For every case of 25 Tyvek® coveralls that is recycled, 10 lbs. of HDPE are diverted from the waste stream and given a second life in products like pallets and park benches. DuPont offers this service for free to qualifying customers. On an annualized usage basis, the savings really add up.

Recycling process



DuPont sustainability

We are proud of our role in protecting people at work and we believe that advancing sustainability is an important extension of that role. From product development and manufacturing to packaging, distribution and marketing, we are focused on continuous innovation to advance sustainability along the value chain. The Tyvek® protective apparel recycling program is easy to participate in and is a cost-effective and responsible choice.

Conserve materials and energy

Lower waste-related costs

Increase eligibility for grants and incentives

Boost employee morale

Meet your ISO 14001 goals

Help the environment
